A.G. KAWAMURA , Secretary

December 19, 2005

**TO THE PRODUCER ADDRESSED:**

Annually, the Department must determine if there has been an increase in the Class 1 and 2 solids-not-fat usage during the most recent September through August time period. In making this determination, the current time period is compared to the previous highest year since 1988-1989. Any increase in such usage is allocated to producers as pool quota. New quota allocations are issued in January of the following year.

A comparison of Class 1 and 2 sales for the period of September 2004 through August 2005, with comparable sales for September 1990 through August 1991 (the highest previous year) reveals that there was a decrease in Class 1 and 2 usage.

The Department, therefore, is announcing there will be no new quota allocated on January 1, 2006.

Sincerely,

*Original signed by*

John Lee, Branch Chief  
Milk Pooling Branch
